**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 43-45, 48, 50-53, 55, 57-60, 62 and 64-68 are rejected under 35 U.S.C. 102(b) as being anticipated by Taylor (US 5630431).

Taylor discloses a system for positioning, moving and locating a surgical instrument including: an instrument guide or resection guide 254; and a manipulator or alignment guide 242 that is capable of being attached to a patient's body part, for e.g. a patient's bone, by means of an adjustable clamp. The alignment guide is capable of positioning the resection guide along a translational path and along a plurality of rotational paths (Fig. 9). The alignment guide also has first assembly 250, a second assembly 251 and a third assembly 253 along with a lock 255 to hold the relative positions of the assemblies (Figs. 8-10, col. 18, lines 27-67, col. 19 and col. 20, lines 1-21).

Regarding claims 48, 55 and 62, the Examiner is interpreting the beacon detector 258 to be the computer navigation tracker.

***Allowable Subject Matter***

The indicated allowability of claims 43-45, 48, 50-53, 55, 57-60, 62 and 64-68 is withdrawn in view of the new rejections made in this action. The Examiner sincerely apologizes for any inconvenience caused to the Applicant by this action.

Claims 46-47, 49, 54, 56, 61, 63 and 69-73 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
